PC's List of Computer Applications to encourage creative self-expression & enhance pedagogy...including recommendations from expert CSI attendees.

1. APPLICATIONS TO ENCOURAGE CREATIVITY & SELF-EXPRESSION

AUDIOBUS: Connect apps on your ipad to:Improvise in one app, apply effects in another app. & record all three in a third application.

Novation Launchpad: Great creative app. for layering sounds, mixing and filtering.

Fingerstomp: Stomp style percussion app. Reposition objects on screen; create, record & export.

SonicPics: Digital story telling. Allows students to put together images, create a story and add sound...or begin with a recording of a piece you are rehearsing, create art & story line.

Bloom: Tap screen for ambient sounds and beautiful visual additions. Create a timed sound loop.

Socrative: Teachers engage students through a series of question/answer games.

Beethoven 9: Watch clips of conductors, follow score, educational dialogue.

2. APPLICATIONS FOR PEDAGOGICAL SKILL-BUILDING

Scale Blitzer: Motivation to practice scales.

Tenuto: Music theory/ear training app.

Fourscore: Score reading app. allows digital storage of all of your scores on ipad. You may annotate scores and import sound files.

Noteperfect: Game for testing and improving note-reading skills. Students race against the clock.

Ear trainer: Has over 160 exercises for intervals, chords scales, and teaching relative pitch.

Karajan Pro: Music and ear trainer.

iReal b: Jazz app. Practice with piano, bass and set accompaniments. Chord charts, create practice loops. Use in class with projector & speakers.

Sightreadingfactory.com: Short sight reading exercises for all instruments. Exercises range from basic beginner to advanced rhythms. May be transposed to any key.

Quavermusic: General music games.

Practice builder: Set goals/encourage practice.

Staff wars: Game for building skills.

Nodebeat/Mobil metronome: Free tuner/metronome for iphone.

Beethoven 9: Watch clips of conductors, follow score, educational dialogue.

Teoria.com: Theory, ear training, dictation.

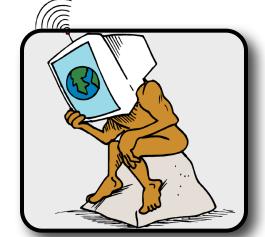

Appsgonefree: Daily updates for free apps.

N.B. If you have discovered other applications you have found to be useful at any level, please share with your fellow teachers.

Send name of application and a brief review and description to:

<pcrider@austin.utexas.edu>

I'll see that your suggestions are added to our CSI site.

I wish you a creative, innovative and musically rewarding year.

Onward!

PC (aka: Paula A. Crider, Professor Emeritus, The University of Texas)
